Locals.

For long distance riding; for speed, comfort and safety; for simplicity of design, for everything that goes to make a reliable, handsome and perfect bicycle, the UNION cycles are so far ahead of all others that the popular expression "out of sight" aptly defines the position they hold when comparisons are made.

Light, strong, graceful and easy running, are the Lovell Diamond cycles. Guaranteed strictly high grade and prices within the reach of all.

Would it not be well to consider well the possible future results of buying as valuable an article as an organ or a piano of transient agents? Have they any motive for telling the truth about goods, or making an honorable reputation as dealers? They are here for a short time, and soon vanish for parts unknown. If goods prove to be not as represented what remedy have you? We offer you the best pianos made such as Chickering, Boardman & Gray, Sohmer, Sterling, Kimball and others, and our guarantee is backed by an honorable reputation gained by nearly 25 years at the business in Owosso. We make lowest prices. It will cost nothing to examine our big stock before you buy.

Detroit Journal: The senate having passed a bill for the erection of a public building at Owosso, it will now devolve upon Congressmen Youmans to secure its passage in the house.

It may interest some of our readers to learn that "The Sons of Industry," a fraternal association that at one time had a large membership in this city, has been reorganized by a few of the old members and some others, and now holds its meetings in Odd Fellows' hall on Tuesday evenings.

Journal: The democrats are talking Roll Mann, of Owosso, as a candidate for sheriff. The sinking of the well at the sheriff's residence is progressing finely. Fowler and Serr who are doing the job inform us they are now 150 feet nearer the celestial kingdom. So far they have bored through 61 feet of surface, 20 feet of shale, and since then they have been going through a light grey slate.

The report of the Owosso Savings Bank is published in another column. It shows liabilities as follows: Capital, \$100,000; surplus, \$10,000; undivided profits, \$3,740; deposits, \$183,400.42; total, \$297,140.69. Assets: Loans and discounts, \$248,094.39; over-draft, \$67.93; due from other banks, \$9,387.85; real estate, etc., \$16,722.40; expenses and taxes, \$1,576.15; interest paid, \$3,658.73; cash, \$19,254.14; total, \$297,140.69.

The Quincy, Ill., Journal of the 18th inst. has the following: The Christian Endeavor society of the Congregational church held a very interesting service in the chapel of the church Sabbath evening last. Mr. H. W. Holman, of Owosso, Michigan, made some telling remarks on the evil cigarettes are doing to the young men of the land. These church societies are of untold benefit to those who attend them in leading to a higher and better way of living.

Thursday afternoon as Jas. Sayers was starting out from his barn on Exchange street with a colt to drive, the animal got its leg over the rail, frightening it so that it ran upon the sidewalk north of the post-office where it was put under control after considerable difficulty. When the horse ran onto the walk it struck B. S. Retan, knocked him down and broke his left arm beside bruising him otherwise. Drs. Waite and Crum were called to reduce the fracture.

St. John's Independent. The joint meeting of the Clinton and Shiawassee Teachers' Association held at Ovid last Saturday, was largely attended and resulted in much practical good to all concerned. Upwards of 200 teachers were in attendance, about equally divided between the two counties. The music provided for the meeting, and from Shiawassee county, was very fine. The entire program was carried out to a finish. The attendance was so great in the afternoon that the school house would not accommodate them and they were obliged to go to one of the churches. There were no fault-finders and chronic growlers about poor wages paid teachers, present. The sentiment appeared to be as to how we can best fit ourselves to create a better demand and better pay.

Barbers Union.

The barbers of the city organized a union Tuesday evening with 15 charter members. Meetings will be held each Tuesday evening. The officers elected are: President, E. M. Elmhurst; vice president, W. Honnecker; secretary, Chas. Post; corresponding secretary, Will Stullif; treasurer, C. S. Gibson.

Owosso's Public Building.

A Washington dispatch of Tuesday announced that the senate passed the bill introduced by Senator McMillan appropriating \$50,000 for a public building to be erected in Owosso. This is certainly good news to our people. However the work is yet to come, as it is more difficult to get a bill of this kind through the house. Congressman Youmans earnestly favors the passage of the bill and will do all he can to succeed.

Peoples' Party.

A county convention of the Peoples' party was held at Corunna on Saturday with 26 delegates present. C. Sagar was elected as chairman and N. C. Payne secretary. The delegates to the state convention to be held in Lansing, June 16, were: D. S. Fosket, Byron; J. E. Figg, Owosso; P. J. Dunn, Burns; C. W. Sager, Bennington; D. Corcoran, New Haven; J. M. Beardslee, Bennington.

Water Mains.

The water board has made the necessary arrangements to extend the water mains a distance of two blocks east on Mason street from Hickory street, eleven persons having agreed to make taps at once. Work will be commenced as soon as the pipes come. It seems to us that it would be a wise move to extend the mains east on Main street and across the river to the pump house just as soon as practicable. This would give two connections with the pumps and in case of a break on the present line water would be cut off at all times. It is well to keep this matter in view and act as soon as possible.

New Machinery.

J. H. Miles has put into his foundry and machine shop this week several new and expensive machines as follows: A drill costing \$375; a shaper costing \$475; a 13 foot lathe costing \$450; a 16 foot lathe costing \$475; and a key seating machine costing \$100. This machinery was purchased of E. A. Kinsey, of Cincinnati, Ohio, and makes an addition to the shop of Mr. Miles that will enable him to turn out much more work and with greater rapidity—a fact which will please everyone who has work in this line to be done. Eight men are now employed and the force will be enlarged as fast as the demand requires. Mr. Miles says his work is always more than he can keep up with, coming from a territory of 25 miles in all directions from Owosso.

He was elected by the school board of Chicago last Wednesday. On Friday evening he laid his resignation before the committee on teachers. The committee tried to get him to remain, but were persuaded to accept the resignation. He will begin his work in Chicago one week from today.

Patterson, Saginaw; Leo Grove, Shepardsville; Franklin Pike, Banister. But two of the young men passed the medical examination, viz., Covert and Kirby.
